

ARMATURE TESTING GROWLER

MODEL NO SL -EE -393, MAKE - LABTEK, ORIGIN - INDIA

SPECIFICATION:

- This tester shows precisely the spot of earth, short, circuits and open circuits of the starter motor
- It checks the state of earth of the armature
- It checks short circuits on the core piece of the armature
- Input voltage: single phase, 220V, 50/60Hz
- Testing current: 2A
- Testing range: 40 to 120 mm \tilde{A}
- Testing voltage: 24V
